The "Toric" lens is ground with a  
deep, inner curve, which permits of  
the lens being placed much closer to  
the eye, allowing a wider range of  
vision with no perceptible edges or  
annoying reflections. The "Toric"  
lens is for particular people who want  
the best and are satisfied with nothing  
less. It costs a little more, but  
it is worth it. We fit the "Toric"  
in eye-glass or spectacle.

## Andrew Carnegie Has Money To Give Away

Because he first learned to save  
it. Beginning on low wages he  
made it a firm principle to save  
a little each week. When his  
opportunity came he had the  
money laid by to embrace it.  
If he had always carried his  
few odd coins around in his  
pocket to spend on every trif-  
le or imagined necessity—he  
would be "poor Andy" today.  
After all, the chief difference  
between the poor and prosper-  
ous man is the ability to begin  
to save. You can begin with  
one dollar—the one you have in  
your pocket now.
